20 Guidelines	10-12 Page limit	5-8 Keywords	500+ Figure DPI	3 Max heading levels
-------------------------	----------------------------	------------------------	---------------------------	--------------------------------

The Twenty Guidelines

Follow every point below so your manuscript is review-ready.

■ Title & Language ■ Structure ■ Figures & Tables ■ Equations & Citations ■ Authors & Submission

- 01** **TITLE & LANGUAGE**
Title: First letter of each word except helping verbs and connectors should be **uppercase letters only**.
- 02** **TITLE & LANGUAGE**
 Usage of **first/second/third person** (our, me, us, I, etc.) should be avoided in the manuscript.
- 03** **TITLE & LANGUAGE**
 Authors are required to **proofread** the paper for English usage (possibly by a native speaker proofreading).
- 04** **TITLE & LANGUAGE**
Abbreviations should be avoided in abstract.
- 05** **FIGURES & TABLES**
 Include all figures in **high resolution** only. Try to keep the **DPI of every figure above 500**. Do not include blurred images.
- 06** **STRUCTURE**
 Contents need to be well organized. **Title, objective, research gap, proposed methodology, and results** need to be inline.

07

STRUCTURE

Authors should include **motivation** and a **paper organization** at the end of the introduction section.

08

FIGURES & TABLES

All images and tables must be **numbered** and provided with a **suitable caption**.

09

FIGURES & TABLES

Do not paste **tables as figures** or snapshots.

10

EQUATIONS & CITATIONS

All equations must be **numbered sequentially** and discussed in the text.

11

EQUATIONS & CITATIONS

All images, tables, equations, and references must be **cited in the text**. Check in-text citations of all these items before final submission.

12

STRUCTURE

Mention at least **5 to 8 keywords** in the manuscript.

13

TITLE & LANGUAGE

Abbreviations should be **expanded to their first usage only**. Non-standard abbreviations should be avoided.

14

STRUCTURE

All sections and subsections of the manuscript must be **numbered properly**. Do not include headings beyond **3 levels**.

15

STRUCTURE

Acknowledgements (if any) should be included after the conclusion section.

16

AUTHORS & SUBMISSION

Author names and ordering must be kept identical in all places (i.e., Manuscript, Submission portal, and Consent to Publish form).

17

AUTHORS & SUBMISSION

Include the **name, affiliation and e-mail** of all authors in both the manuscript as well as on the submission portal. In addition, do not forget to mention the details of the **corresponding author**.

18

STRUCTURE

The **conclusion** should be novel and supported by statistical remarks on the results of experimental study.

19

EQUATIONS & CITATIONS

Reference items should be complete. Avoid incomplete and not cited references in the list.

20

AUTHORS & SUBMISSION

Download the **Word/LaTeX template** from the website (Word Format or LaTeX Format) and submit your manuscript as per the template. The manuscript should be kept within the **page limit of 10-12 pages**.

Final Pre-Submission Checklist

Tick each item before you upload your manuscript to the submission portal.

- | | |
|--------------------------|---|
| ☐ | Title in correct case; no first/second/third person; abstract free of abbreviations |
| ☐ | English proofread; abbreviations expanded at first use only |
| ☐ | Figures above 500 DPI, numbered and captioned; no tables pasted as images |
| ☐ | Equations numbered and discussed; every figure, table, equation and reference cited |
| ☐ | 5 to 8 keywords; sections numbered up to 3 levels; acknowledgements after conclusion |
| ☐ | Introduction ends with motivation and paper organization; conclusion backed by statistics |
| ☐ | Author names, order, affiliations and e-mails identical everywhere; corresponding author marked |
| ☐ | References complete; official template used; 10-12 pages |
